What is your first imagination of a classic or contemporary kitchen?

With no doubt, it is a sense of being old and originality and as you know, natural wood has been the most popular material in equipping interior and kitchen decoration. If you desire to have such kitchen, you will have to use such material (wood or wood covering) in equipping your kitchen. Because of limited sources, hardness, and high durability of wood, it is more expensive than other materials. So a kitchen that is built from wood or wood covering costs more and is more luxurious comparing to other types of kitchens. Atra is now combined the old materials with today's beautiful designs in a modern way.
